## Company Overview

From Head Office in Barry to the Satellite office at Baglan, Port Talbot, BTS has developed into an international health & safety training company, satisfying clients' demands all over the UK and EU member states.

From small beginnings delivering lift truck training, the course portfolio has now developed

considerably offering a range of lighter courses such as First Aid to Heavy Plant Training. Courses include the CITB Site Safety Plus qualifications, Construction C.S.C.S test, IPAF, PASMA, Confined Space, ADR (Carriage of Dangerous Goods by Road) I.O.S.H Managing and Working Safely, E.C.I.T.B. CCNSG Safety Passport, Manual Lifting to name just a few.

David Phipps, Managing Director, believes that the continued growth of the company is due in no small part to its ability to respond at short notice to client demand anywhere in the U.K. and EU member states, tailoring courses specifically to its clients requirements.

New courses are continually being developed and added to our extensive portfolio, and can be delivered in other languages such as Polish, French, German etc. We also employ Polish admin staff who can converse with Polish companies if required. Tutors travel throughout the U.K. as well as European Member States to deliver courses.

Clients range from large international companies to small family run businesses with as few as five employees.

**No organisation is too big or too small**

## Testimonials

"We found BTS to be a very professional company from initial enquiry through to completion of the course and issuing the certification, we will be using them again in the future for more training once our other courses have expired."

"Dealing with BTS is great, friendly and efficient contacts which helps a lot when juggling training, and patient when dealing with me. I have had nothing but praise back on your instructors."

"Always professional, friendly and informative, the team are fabulous and I always recommend here."

"As normal, BTS handled our requirements excellently, we have used BTS on many occasions and will continue to do so."

"Trainer was very welcoming, knowledgeable and engaging. Course material was thorough and plenty of group discussion was welcomed."

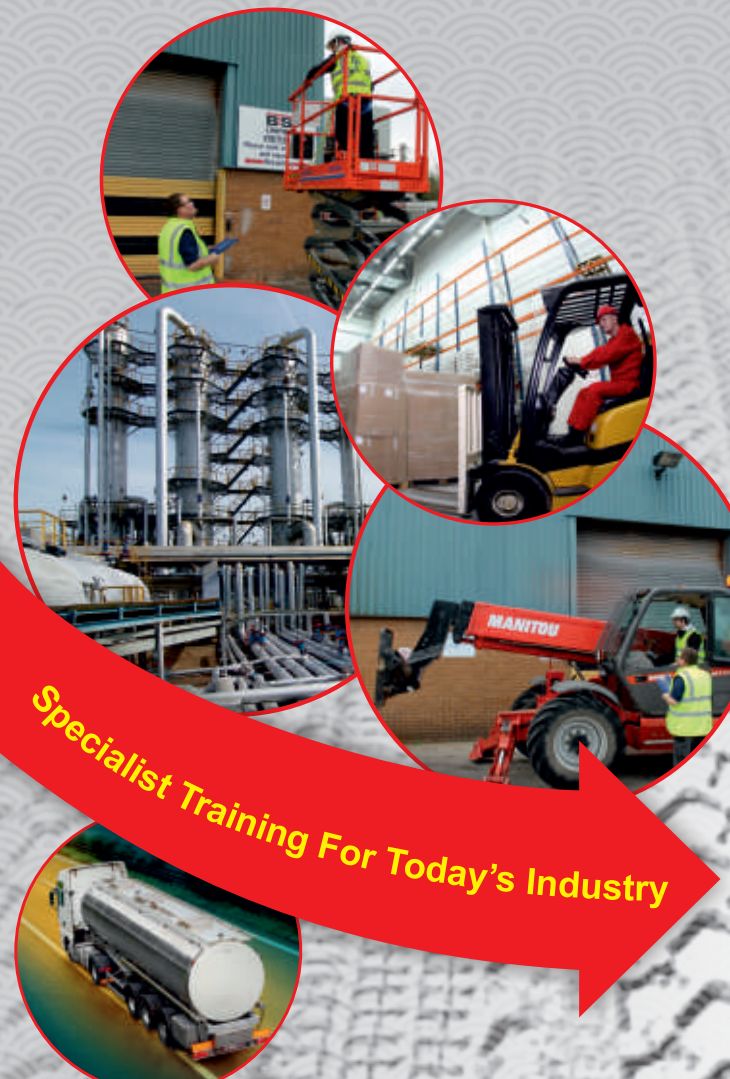

2020 marks 30 years helping industry remain compliant
